

We invite to a workshop on
UR - Results of the 2019 campaign

Friday, 26th July 2019, 9.50 am – 3.00 pm
Historicum room no. K 001, Schellingstraße 12

In spring 2019, the new Ur excavation project, directed by Prof. Elizabeth Stone (Stony Brook University, NY), was joined by a team from the LMU Munich. The examinations concentrated on the southern hill of Ur, especially on the Old Babylonian and Ur III settlement. The results of that campaign will be presented in this workshop.

The workshop includes speeches of varying length with subsequent in-depth discussions. The time schedule can thus be only approximate. The workshop will be held in English.

All interested parties are very welcome.

PROGRAMME

- 9:50 **Adelheid Otto and Berthold Einwag**
Introduction
- 10:00 **Paul Zimansky**
Early work in the new Ur Project: Areas 1 and 2
- 10:45 **Elizabeth Stone**
